

HOW TO SUCCEED IN LAB

1] Be Prepared

- Be on Time
- Bring you lab manual & pencil to class
- Read the lab before coming to class
- Use sticky notes to mark relevant pages in the Atlas

2] Work smartly in class

- Gather all data first
- Answer other questions either later in class or at home

3] Work at home

- Finish questions
- Make sure you name in on first page
- Staple entire lab to turn in next week

4] On Arrival to class

- Turn in lab on arrival to get credit for you work
 - Open you lab manual to the exercise for that day
- or
- get a quiz strip out for the quiz
